UNIVERSITY OF ABERDEEN.

*November 1, 1871.*

THESE are to certify that Dr. GEORGE FINDLAY, A.M., M.D., and C.M., of this University, has been known to me for several years, and that I believe him to possess such a knowledge of his profession, as, with his ample experience in the practice of it, renders him exceedingly well qualified for the vacant post of Medical Officer to the Aberdeen General Dispensary.

*8th November, 1871.*

I HAVE much pleasure in expressing the high opinion which I entertain of the qualifications of Dr. FINDLAY, both as a Physician and Surgeon. I believe him to be possessed of qualities and attainments which will render him a very valuable officer to any Institution which may secure his services. I have formed a most favourable opinion of his character in other respects, and am satisfied that he will perform the duties intrusted to him, whether in a public or private capacity, with much zeal and judgment on all occasions.

J. MACROBIN, M.D., *Prof. of Medicine.*

I HAVE much pleasure in bearing testimony to the character and professional acquirements of Dr. FINDLAY, at present a candidate for the vacancy in the Aberdeen General Dispensary, occasioned by the death of Dr. Robert Smith. In my opinion Dr. FINDLAY is well qualified to discharge the duties of the office for which he is a candidate, and I am satisfied the Managers will be fortunate in selecting him.

ABERDEEN, November 1, 1871.

THESE certify that I have known Dr. FINDLAY ever since he commenced the practice of his profession in this city, now nearly Seven Years ago, and having frequently met with him in consultation, I have had abundant opportunity of forming an opinion as to his professional abilities; and from what I have seen I have no hesitation in stating that if he is appointed one of the Medical Officers of the Aberdeen General Dispensary, he will discharge the duties in such a manner as will not only be satisfactory to the Institution, but creditable to himself.

DR. GEORGE FINDLAY was first known to me as a diligent pupil in this University, and, since he graduated in 1865, he has enjoyed ample opportunities of becoming familiar with the practice of his profession.

I have had the opportunity also of occasionally seeing him in the discharge of his professional duties. I have, therefore, much pleasure in being able to recommend him as well qualified for an appointment such as that for which he is now a candidate.
